READ READ READ
Don Ramon Castro's Report on this camp. He is the agrimensor who surveyed it, and placed the mojones, and knows what it is.
This camp was selected from the very first by the agrimensor Don Eduardo Castex, to wh m we can refer by permission.
This is the translation of Senor Castro's report:—
Esteemed Sir:
Your favor asking for a report on your camp Nos 33 and 33, prima relative to the quality of its soil, its grasses, its waters [aguadas] and topography duly received.
For this purpose I have again examined the notes that I took during my survey of your camp.
FIRST, SOIL.
This is in the greater part of a rich black loam (tierra vegetal) and in some smaller portions somewhat calcareous.
GRASSES—These north west from the point F, and NorthEast from the point G, and South East from G, noted in the plan, are of excellent quality, soft grasses, gramilla and trevol being very abundant especially in some of the cañadones the camp has on these lines.
On the lines S F. the grasses although not of the soft character indicated on the other lines, are nevertheless, thick and abundant (tupidos) and excellent for cattle and mares.
Your camp has an arroyo of sweet water which runs into an immense lake called LOS FLAMENCOS also in your camp.
This arroyo takes its rise in springs and the cañadon through which it runs is extensive and rich in soft grasses and trevol.
You have also the great lake DEL HUNCAL of permanent sweet water in your camp which has its crecientes periodically. The cañadon around this is like the other very rich in its grasses and abundant in trebolares.
TOPOGRAPHY. The camp is in general rolling, in some parts high in others quite level.
Believing that these details are sufficient for the present I am
Your truly,
RAMON B. CASTRO.
Agrimensor.
NOTE—The base de venta is ps. 90,000 per league payable ¼ cash, ¼ a 6 months, ¼ a 9 months, ¼ a 12 months. Bills to my satisfaction. Titles first class. The above offer I have already, and so I place it as the basis of sale.
Plans and details at my office, San Martin 31.
I shall sell to the highest bidder and without reserve on Wednesday, November 16th at 2 p.m. at my office 31 San Martin, where the flag will be flying.

TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

Special Telegram

Concordia, Nov. 3rd
To Editor of *Standard*

The most audacious attempt ever heard of is now being made by the Government here, which asserts that the importers and exporters of produce have defrauded it. The merchants call for proofs and quietly await result, as they do not owe a copper to the Fiscal.

The Government has given 48 hours for the collective payment of half a million of patacons, otherwise it will embargo, put seals on doors and 'execute.'

We have appealed for the protection of the President of the Republic, through the sectional Judge at Parana, the only one who can act in the matter.

There is intense indignation. Twenty firms compromised. We ask you to raise your voice to see justice done.

London, 2nd.

Fresh disorders took place yesterdag at Bemullet, Ireland. Police had to ask for military intervention. Several killed and wounded, and a great number arrested. Agitation among population continues.

Rio Janeiro, 2nd.
(Evening).

Ministers of Empire and Foreign Affairs just resigned.

EXCESSIVE LEGISLATION.

It is indeed remarkable that whilst the Nat. Government is obliged to withdraw from the list of measures scheduled for the prorogue some fourteen or fifteen projects, the Provincial Government, on the same day and in the same papers, publishes a fresh list of measures for prorogued legislation. Possibly, before Christmass, Governor Rocha will have to follow in the footsteps of President Roca, and withdraw from consideration many of his projects, but whatever may be the sequel, our task is the same: we translate and publish both lists, with a sigh that our Parliamentary sessions stretch over such lengthened periods and with such very little real business despatched.

A Cassandra on Argentine legislation would probably tell us that the years are not remote when increasing Platine civilization will abolish one house of legislature, and Republican parliaments will then be composed of but one house, we suppose the Deputies. That the Argentine nation suffers from excessive legislation even the Bolsa brokers will admit; a National Congress should be sufficient for the whole Republic without the accumulation of Prov. Legislatures, such as at present exist. The list of projects withdrawn from Congress by President Roca proves how greatly the President erred in his estimate of Congress and Congressmen, since not a month ago he drew up a list of bills to be despatched, more than one half of which are now withdrawn. With the mellowed experience we have of the working of the Argentine legislative mind, we can safely say that, had President Roca not withdrawn these projects, the session of Congress of 1881 would run into the session of 1882, and not a man of Congress would have been able to revisit his home and family until 1883. Congress sessions stretch out such prolonged lengths that, like the breakfast and lunch arrangements at a great American hotel, they run into each other, and oftentimes a man finds himself in New York eating lunch when in reality it is breakfast; to distinguish between the meals is as difficult as to distinguish between the sessions.

To render the subjoined paper more intelligible to our readers, it would be well to give a list of the projects still standing for debate, but this is difficult, since from one of the secretaries of Congress we learned the other day that the 100 million loan project is withdrawn, yet in the list before us it is not mentioned.

The withdrawal of the Woodgate dock scheme seems to have gratified the rampant opposition party, yet it is to be regretted that now another year must pass away without docks of any description: Woodgate or non Woodgate, surely the Riachuelo is large enough for docks on either bank; but the Government, the Municipality and Woodgate seem to be all floored on this dock question. Blighting error! There is no more necessary Public Work in the whole category of our shortcomings.

Buenos Aires, Nov. 2nd 1881.
To the National Congress

In the list of Bills submitted to Congress for the Extra Session, by decree of 30th September last, the Executive included several of great importance, and which could not be postponed till next year without injury to the public interest, as it considered that the Chambers would have ample time to consider these and the other matters set forth in the decree.

But it is now apparent that, the season being so far advanced, Congress will be unable to give to all the Bills mentioned the calm consideration they require, without prolonging the session beyond the rational time for a single year's legislation, so the Executive deems it expedient to withdraw the following Bills:

Railway from Cordoba to Malagueño — Recruiting Law—Organization of Customs Resguardo and Alcaldia in the capital—Report of Accounts Committee on Expenditure of former years—Revision of Penal Code—Normal School Building in the Capital—Extension of Normal Schools in Tucuman and Parana—National Council of Education—National Museum—School of Music in the Capital—Military Penal Code—Navy Notaries—Riachuelo Docks—Port at Ensenada—Canalization of the rivet Lujan—Dyke on the river Arias.

God guard you,
ROCA.
A. del Viso.

The Provincial Government has sent the following Bills to the Chambers, to be considered during the Extraordinary session.

Buenos Aires Nov. 2nd 1881.
To the Hon. Legislature

Availing of the powers conferred on me by clause 7 of Article 142 of the Constitution, I summon you to an extraordinary session, to consider the following Bills, the sanction of which is of great moment to the public interests: New Capital of the Province—Laws for same—Budgets, ordinary and special, and for Municipalities—General and Municipal Taxes—Extension of Southern Railway to Bahia Blanca and Tandil—Extension of Western Railway—Railway from San Nicolas to Junin — Organization of Hypothecary Bank—Levelling and Drainage in the Camp—Land and Colonization—Ejidos of Arrecifes and Pergamino—New towns in Lavalle and Carhue—Loan to Municipality of San Jose de Flores—Vagabonds—Acuerdos for appointments in the Chambers.

All the foregoing imperatively call for your consideration, in the interests of the Administration and the wealth and progress of the province, and for the removal of abuses.

I could have wished that your labours had closed with the ordinary sessions, as it would be more in accordance with the Constitution and would leave the recess for necessary repose, and the necessary study of public affairs which the high mission of legislation imposes; and also because I require the time of the recess for carrying out your laws and otherwise attending to administrative details; but the new situation of the province and the great reforms I have initiated have induced me to call you together, trusting that by vigorous application to the consideration of the Bills before you, your period of work may be shortened.

DR. WILDE'S REPORT.

Among the unsettled questions of the Committee the most important refers to the claim of the former manager of the works, Mr Bateman. These claims to not consist only of the payment of the balance of 7 p. cent due him, and duly recognized, amounting to $ 1,504,195, but also of the damages occasioned to him by the suspension of the works. These questions, according to the proposal of the Committee, were submitted to arbitration; but this arrangement has given rise to such great difficulties that not even the tribunal has been as yet constituted. The Committee named Dr A. E. Malaver as its arbitrator, who, before accepting the trust, demanded the necessary information respecting the character of the tribunal proposed. After previous consultation with Mr Bateman and removal of the difficulties opposed by the arbitrator of the Committee, with the due authorization of the Executive, it was decided to draw up the questions precisely and clearly, to submit to the tribunal; here the real difficulty arose, which has paralyzed the question up to the present date.

The arbitrator of Mr Bateman, and at the same time his representative, had to decide in his latter character, with the President of the Committee, the nature of the questions on which he subsequently had to arbitrate. This duplicate position was the cause of the failure of the arrangement, with regard to the questions to be presented to arbitration, and especially with reference to those of the Committee, as whilst revising Mr Bateman's accounts, it sent in a list of claims against Mr Bateman to the amoun of $13,000,745 for damages and useless works, on the ground that the liquidation of December 1877 opened the door to complaints from Committee as well as from Mr Bateman.

TUDOR, equal in quality and flavour to Teas sold at $30 m|c and $40 m|c lb. Parties who have once tried it take no other. SOLD EVERYWHERE.

This question has not yet been settled. As regards the payment of the recognized debt, the Committee has nearly completely effected same, after permit of the Government to use the working funds for the purpose.

There is a balance of £2,980 due Messrs S. Watt & Co, for machinery, and their claims have not yet been settled. The Committee not long ago adopted measures to close this account; it has decided to put up the large machines, work them and pay for them, should the trials be satisfactory. This matter is closely linked to the extension of the water piping, and a sufficient amount of same to supply the city in all seasons: and as such a vital question cannot remain long unsettled in view of the approach of the summer season, it is probable that the accounts of Messrs S. Watt & Co. will be very soon closed and terminated.

Messrs Stewart and Edington, manufacturers of piping, have made a contract of £50,000 with the Committee, already £10,000 worth have arrived. These gentlemen must remit to the Committee 5084 tons of piping.

With the Burham Cement Company a contract has been made for £9,000, value of £2,000 tons of cement that the Committee is to receive from the Company. The amount of these contracts may be calculated at £64,000.

The suspension of the works, the rescinded contract of the former manager, Mr Bateman, and the failure of Mr Getting, left without effect, restricted and in some cases gave a larger extension than was thought to some special clauses of the contracts made with these gentlemen by the Committee, the latter body, with a view of being well informed of the state of these contracts and possibly to reduce them to some more convenient or reasonable terms, sent a representative to London at the end of last April, in the person of Mr David Bankier, with instructions, comprised in appendix D.

Since by a fresh contract, the management of the works has again been handed over to Mr Bateman, who enjoyed the position before and as director intervened in these contracts, orders have been sent to Mr Bankier, withdrawing hie instructions.

FOREIGN CAPITAL IN THE PLATE.

To the Editor of the *Standard*.

Dear Sir,

I will risk intruding upon your spare time, since I know that you have the country's welfare at heart, and should my remarks have no other result than to make the most of your articles appear more brilliant by camparison, they will have served some purpose.

As a German-American, I notice with pride and satisfaction that you often refer to the United States and its institutions as examples worth copying, and it is a comparison between these two countries which I like to make the theme of my remarks.

Speaking, therefore, first on the topic of emigration, I often wondered why people here seem to think it strange that in the States forty-five millions of people can totally absorb five hundred thousand emigrants every year and make good American citizens of them, while few foreigners here look upon this country as their permanent home. Have you ever been, Mr. Editor, in the home of the free and easy, absurd and sharp, industrious and energetic Yankee, whose cardinal virtues seem to centre in 'good will towards all men.' There is sharp competition, but no jealousy, sometimes rather boisterous disagreements, but no cowardly attacks, and, above all, a liar is the most despised of all beings. The variety of climate and the present development in industries, science and art, give all classes a ready market for knowledge and skill, and spurn the idler and reward the earnest toiler.

It would be idle argument to inquire into the reasons why this country is not equally prosperous. Certain it seems that Nature has endowed it too liberally, and it has become one of her spoiled children. But spoiled children stand a poor chance in the world now-a-days, and are apt to get haughty towards those whose example they would do well to imitate.

In some of your articles you express the hope that the tide of emigration will soon turn towards these shores. Naturally one thinks that you have superior advantages to offer. What are they? Surely, not wages. For the agriculturist and artizan, the scientist and artist, they all receive better pay in the United States, which I stand prepared to prove by figures. Mr. John Samson, inviting British capital to the Plate, says that a man in this country could commence with a capital that would avail him but little in the States or in Europe! Show me the man here who commenced carrying salt bags on the levy, learned to read and write when eighteen years of age, and in the course of years became president of a leading bank, president of the strongest tramway company in St. Louis, and proprietor of the largest cotton and tobocco warehouses and immense manufacturing establishments, which is the actual career of a friend of mine.

Or could you, perchance, offer the greater comforts or enjoyments of life? I have seen a greater business of expenditure here, amongst those who thus seem to wish to convey an idea of superiority, but comfort and enjoyment I have failed to perceive in any shape in this country.

The lack of this commodity explains, perhaps, why foreigners, as a rule, do not consider this their permanent home. For, what is life if we cannot live by the way? I do not know how many foreigners are house-owners in Buenos Aires, but it seems to me that this bond of home-feeling ought to be stimulated by real, popular building associations, which not only build houses on monthly repayments, but also lend their experience to all connected with housebuilding, and to those who only intend building once in their life.

The amount of insurance, too, both of property and life, is a good indicator of people's permanency and prosperity. As far as I have been able to judge this field is not sufficiently cultivated. At least I know of one factory which has been running, with a large capital, for over ten years without insuring one cent., a fact which in the States would leave the concern without the possibility of credit.

Mr. Samson also wishes to encourage 'new' industries. My varied experience convinces me that such enterprises can only be launched successfully by men backed by heavy capital, thorough acquaintance with the country, and popular sympathy. Emigrants and newcomers would only sow for others to reap. But why think of new industries when those now began are only in their infancy. I remember that some eight or ten years ago fortunes were invested and doubled in St. Louis in cotton cleaning and cotton compress works, while cotton mills were paying poorly. Those were natural forerunners. Now it is proved that the fibre of the cotton looses much of its natural elasticity by being compressed, and cotton is manufactured with the greatest success in the south.

A protection to manufacturers, more valuable than any protective tariff could possibly be, is a good patent law. I am told that a patent in this country not only costs from $200 to $300, but is also infringed with impunity. In the States the official cost of a patent is $35, and protects you efficiently in a community of forty-five millions of people. Do you blame inventors for choosing the States as their Palestine?

In spite of all I have said, however, I cannot help but believe in a brilliant future for this country. If people will only stop blaming drought, inundations and locusts, foreign markets and their Governments (what men will deride his own creation,) instead of themselves, alleviate each other's struggles, to the best of their ability, and set to work with a long pull, a strong pull and a pull *altogether*, then this country must abound in prosperity, and the new comers will be welcomed with a 'good will towards all men.'

Yours truly,

A German-American.

EDITOR'S TABLE.

The rain again came down 'like a wolf on the fold' yesterday, and we suppose stopped shearing in every fold in the camp, where it was not much wanted: but it was a great relief in the city and suburbs, where the dust was inconveniently plentiful.

We know of a good chance now for a smart Anglo-Porteño or any other lad of about 15, who can speak English and Spanish, and has ambition to become a scientific man. A distinguished naturalist requires such a boy as assistant, to accompany him in his rambles, and will pay him according to his competency in learning. A tractable boy, who can give good references as to his being such, is what is required. Now, young gentlemen, step forward; there may be stuff for a Humboldt in some of you, and here's a chance for getting it out of you.

They had some Juegos Florales at Mercedes the other night. It was a dangerous experiment after the recent affair here, but Brander was unable to attend, and everything went off nicely. Stop! Here's the *Nacional*, and, by all that's lovely, Mr. B. has unearthed another plagiarism by the *Nacion*. It's awful, Brander, if you love us, stop this, or you'll be the death of half the town from excessive laughter.

A most painful sensation has been caused in Montevideo by the shocking murder of D. Fernando Nebel on the race course on Monday. It appears that he was leaving the course on horseback when a man named Santos shouted to him 'come and settle that account about the sowing!' Nebel said 'all right' and dismounting, entered the ring. Santos then said there was another matter to be settled first, and drew a dagger. Nebel then drew his revolver, and fired at Santos, but missed him, and the latter rushed on him, stabbed him, threw him down, took the revolver from him and fired a bullet through his head; the murderer then mounted his horse and rode away. A boy who saw the whole affair gives the above description of it. It is strange that no attempt was made to catch the assassin at the moment. The murdered man belonged to a good family, and his funeral was attended by many leading personages in Montevideo.

Argentine legislation is a queer, business: everything of most importance left to 'the heel of the hunt.' We publish in another column lists of the Innocents which President Roca has been compelled to sacrifice to the dilatoriness of Congress (we are sorry to see the Woodgate Dock amongst them) and those which Governor Rocha has commended to the tender mercies of his Chambers; half of these will inevitably be slaughtered also. Considering that there are no obstructionaists in either Congress or the Chambers, both bodies have got through woefully little legislation this year.

The Horticultural Society's second meeting came off very successfully on Wednesday evening. The result was as follows:—Gustavo Hamonet for roses, (a splendid collection), and for ferns, climatis, and begonias. Basset Bros., for 90 varieties of caladinous, and for new and rare plants. Thomas Wilson, for cut flowers and ornamental plants. Vicente Pelufo, for marantas, and a few begonias. Eyhorn and Müller, for beautiful ferns, and a magnificent anthurium cristalium. The meeting was very well and numerously attended. Amongst those present we noticed Mr and Miss Elortondo, Mr and Mrs Casa, Dr and Mrs Ayer and party, Mr and Mrs Tucker and family, Mr and Mrs Posse, Dr Hiron, Mr and Mrs Doney and family, Mr and Mrs Dornan, Rev Mr Spilsbury, Mr and Mrs Pott, Mr Sandford, Mr Williams, Mr Alarcon, and very many with whom we were not acquainted.

There is a very 'spirituel' Paris Letter in our Supplement to-day.

There will be another excursion trip to the Admiral Brown on Sunday next, from the Boca. Tickets can be had at No. 38 Calle Victoria.

One of our morning colleagues has just made the discovery that a look at the "basura" carts produces nausea, so filthy are they. We knew this twenty years ago. Nothing new under the sun.

There was very little news from Montevideo yesterday, as there was nothing going on there on Wednesday but visiting the cemeteries. General Santos, with decidedly questionable taste, selected the solemn day to give a 'jollification' to his political friends at his quinta.

The Italian dramatic company at the Opera House will say good bye to Buenos Aires on Sunday next. It is a good company but has been badly supported. The fact is that Buenos Aires is surfeited with dramas, operas, Italian and bouffe, etc. etc. and can stomach no more of them for the present.

About a month ago, a gentleman named Godoy and his grandson, a boy of seven summers, while travelling in the South of Minas Geraes, were attacked by a swarm of hornets, which settled on them in such numbers that both the unfortunate persons were literally stung to death.

Sr Del Valle has presented the Palermo Park Board with a valuable addition to the Zoological Department, namely a huge ape brought from the Brazils.

The day before yesterday the remains of Sora. Bonoriuo were deposited in their last resting place. She died at the very advanced age of 101 years and has left to mourn her loss no less than 10 sons, 48 grand children, 99 great grandchildren and 3 great great grandchildren, which added together make a total of 160 descendants. If this lady's offspring continue to increase for another few years in the same proportion, they will have a fair chance of becoming still more numerous than the well-known old family of Smith, whose sons—like the Jews—are to be found scattered over every part of the globe.

The report that the ex-President of Chile had refused to be Minister Plenipotentiary to this country is contradicted. H. E. will be here next month.

The *Boletin del Instituto Geografico* is very good this month. Mr Latzina's paper on long and short-lived generations is a specially able and interesting one. Mr Fontana also contributes some very useful information on the climate of the Gran Chaco.

The loss of the lightship at Bahia Blanca before she was a week at her anchors has suggested a new idea to the port authorities down there, viz, to place a lighthouse on the summit of Mount Hermoso. To a non nautical mind this appears better than a lightship.

Another 20 years case has just been settled by the Minister of Justice with a 'no hay lugar.' It was a claim instituted by Mr Boris, in 1861, for 140,000 pats for damages done by the Indians to an establishment he had at Calchines. Mr B. must have had a good many headaches over this 'asunto,' and has now, probably, a worse 'migraine' than ever. Twenty years ago there was not 140,000 pats worth of marketable property in the whole Chaco, unless the undiscovered aerolite, from whose vicinity no traveller has as yet returned, be considered good for the amount.

Mr R B McKinlay will read a paper at the English Literary Society's rooms, on next Wednesday evening, on 'The land we live in.' The subject is old, but if there be a man in town who can throw a halo of fresh interest round it, it is our good friend Mr. McK.

A colleague states that the Provincial Government is about to fine the Northern and also the Ensenada Railway for not complying with art. 115 of the bye-laws for railways i.e., for omitting to post placards of the time-table, &c., at some small stations on the line. Verily, the Government is becoming most insufferably exigeant in insignificant matters, and, indeed, every department must work most faultlessly if Government officials can find time to look after such trifles. Instead of bothering about time-tables at wayside stations, railway companies should be compelled to advertize all the year round in the newspapers, under pain of some awful penalty for the Managers.

ON 'CHANGE.

Nov. 3, 1881.

Patacons	26.20
Cedulas A	99
National Bank Shares	125
New Gas Shares	81

Gold fell off another 5 cents to-day and closed cash at 25.20, which led every one to think that in a few days gold will be at par, and the Provincial Bank will be obliged to enter the market and buy gold to keep prices from going under $25. It may be so the pressure of exchange and produce on the gold market is tremendous, and all the gold that has to be sold cannot be disposed of before $25 is reached.

Gold opened at 25.25 cash and closed at 25.20; sales, 43,760 pats. For end of month 92,000 pats at 25.25, and for end of year 324,000 pats at 25.25.

Cedulas much firmer, only one sale cash, 10,000, at 99, and for November 63,500 sold at 99⅛.

National Bank Shares opened high at 127 for end of month, and soon gave way running down to 125 and closing at 125½. The bulls let go about 3000 shares and then bought back, say 2000 shares; although the market gave way, the feeling is that the stock will advance, as new hands and new outsiders are buying it.

At the close of the ring Mr Bubuck took his stand and called a judicial auction of 225 shares Buenos Aires Gas Company [New Company] Ten Pound Shares. There was only one bid and the stock seemed to have but little acceptation on the market: it was knocked down to Mr. Torres at 81 the whole lot. But for the Jager lawsuit these shares would have sold much better, but people are frightened, owing to the decision of the Courts the other day in favor of Jäger. The last previous sale of this stock was at 85.

The rain came down in torrents to-day, and besides checking business checked the general attendance on 'Change; as a matter of course this rain will stop all shearing for the rest of the week, but no one apprehends any losses in the flocks as the weather is so warm.

To-morrow the splendid Bahia Blanca lands of Dn Ataliva Roca will be sold by auction at Messrs Baltar & Quesada's; we recommend the business to our camp friends who want to secure really good camps in the South at low prices.

The Canadian (*Standard* steamer) has arrived at Montevideo after her usual quick passage; she will have plenty of bales ready for her for Havre.

The sales at the ring were—
For cash 43,760 25.25-20
For Nov. 4th 20,000 25.20
For Nov. 30th 92,000 25.25

Afterhours auction for account of the National Bank—

New Gas Shares—
For cash 226 shares at 81

At afterhours Bank Shares gave way; a French broker entered and sold about 2,500 shares, which at once weakened everything and prices dropped to 124½. Not much done in the stock, however, at afterhours. Gold rules very shaky, and some exchange brokers pushed off a lot at 25.20, for to-morrow, but we heard if a buyer for a large amount could be found gold could be had at 25.15. Every one on 'Change says now *a la Par*. Cedulas heavy, sellers offering on long dates at 99⅛, not much done.

The R.M.S. Tagus will be here on Monday; she brings £50,000 sovs. to the English Bank of the R. Plate. Mr Green has engaged for her 1,000 bales at fs.35 and 10 o/o, and 2,000 dry hides at 60. The Pampa sails on 5th, having finished loading at fs.30 and 10. She takes 4,200 bales. The Copernicus sails on 5th for New York.

Mr LeBas, of Montevideo, was welcomed on Change; he says 4 vessels have cleared with 130,000 hides; 3 are loading with 100,000 hides. The Daisy Poynton chartered to load dry hides in Montevideo for New York, reserved rates.

Mr Ham sold to-day 3000 ar wool at 73, 75 and 76; about 25,000 ar new wool entered this morning, and nearly all sold, prices fluctuating, but generally speaking rather firm from 65 to 90; several wools bought outside coming to market and selling at a loss. Some Lincoln cross bred sold, reserved rate. A splendid lot in from Mr Bernal, 90 offered and refused.

The Allan steamer Canadian will be up in the morning, she brings dates to 9th ult.

Mr Bernardino Acosta was offered to-day 3500 pats per league for 12 leagues of land he bought yesterday at 1800 $f per league.

The weather checked the Lincoln land auction to-day, land not sold.

Mr Van Gendt, the leading barraquero, who has returned from Europe in Equateur, was welcomed on Change.

They report good telegrams from Bordeaux received yesterday in Montevideo about sheepskins, and the last telegram from New York gives dry hides firm, 24½ Montevideo, 24 Buenos Aires.

Telegrams from Patagones say, Toro and other vessels cannot cross the bar, supposed they will have to enter the Bay of San Blas.

Exchange freely offered; we heard of bills passed at 5.27 Paris, and 5.28 Antwerp.

The Sales at afternours were—

It seems that there is some hitch about the withdrawal of the Hundred Million Loan project, since, notwithstanding the articles in the *Prensa* and other papers announcing that the Government had withdrawn the bill, the measure does not figure in the list which we give in another column, and one of the best informed brokers on Change assured us to-day that now that Dr Romero has returned to the Ministerio de Hacienda the project will be brought up for discussion in the house.

The sale of a league of good land in Cordoba for 2,700 pats is announced. There is a great business now going on in land, and the splendid property offered by Mr Frank Livingston is the talk of the whole market; the land is excellent and the terms the easiest. We commend to the attention of our readers the fuller details about this business to be found in our advertisment column.

To-day the Direcion de Rentas was to fix the stamp duty for the new English Bank.

It appears that at the liquidation on the close of the last month 17,000 Nat. Bank shares were taken off the Bolsa.

The opening of the Oficina de Cambios is now the daily talk of the Bolsa, and some parties say that before the end of the present month the Oficina de Cambios will be opened. This will be the triumph of triumphs for Don Carlos Casares and the Directors; the Bolsa must buy white kid-gloves for the Bank President and Directors, as this is the custom in analogous cases, and must be observed.

An estancia, 229 square leagues, is now offering in this market, and there is so much doing in land that we should not be surprised to hear that the broker who offers the land has found a purchaser. Another fine property 80 leagues near Rio Cuarto; another 50 leagues in New Lincoln, and another 50 leagues in Cordoba all are at present offering in the market. Nothing pays better than a good estancia land investment.

The Chilians we hear published the Argentine treaty 'per bando', which is an ancient custom, the regiments turning out with bands of music and the treaty being read by the commanding officers at the street corners. We should like to have seen the Argentine Government publish the treaty in the same way.

Mr Stewart, Mr Pentony and some others who came out on contract with the Maipu have returned to Europe in the Lamport & Holt steamer.

Mr Posse, the largest sugar planter in the provinces, left this morning for Tucuman.

The work of the International Exhibition progress rapidly, and a large number of hands are now employed; it will be the grandest affair of the kind ever witnessed in this city, and will doubtless prove a brilliant success.

Mr R Newton, the Government Commissioner, will leave for Australia in January; we trust that his mission will be productive of reforms in the way our wool is got up for market.

The Galileo arrived to-day with several old friends and Welsh emigrants. We give the list of passengers in another column. She brings besides £20,000 stg. five thoroughbred horses and cows. The passengers coming ashore had a very wet time of it. We congratulate Messrs Lamport & Holt on their first class tender. Had the trip to this city been effected in any of the usual small tenders, it would have been simply intolerable.

The mail per Equateur bring the following financial advices:—

"The advance of the Bank rate this week will undoubtedly attract a good deal of attention and give rise to considerable speculation as to the probable effect of the present position of affairs upon the stock market. Gold has not only left our shores for New York, but it has also been shipped direct from the Continent during the week, and noticeably from France via Havre. The advance of the German bank rate was anticipated on the Berlin Bourse there has been some apprehension, in view of the latest figures published by the Imperial Bank and the probability of increased stringency in the London Market, that some serious difficulty may be experienced by the Imperial Bank in meeting further calls for gold upon it. As regards the position in Paris, it is said that an 'agent de change' has been refused countenance on Lombards, notwithstanding that he offered 1½ per cent, and this incident is rightly said to betoken distrust. One thing at least seems probable, and that is that there will be restrictions of credit on the stock exchanges, a result which will be not altogether unsatisfactory. With regard to the withdrawals of gold from London to America, it is said that they have been made by an establishment whose operations of this character are not unfrequently conducted irrespective of the rate of exchange. It is also said, and this is reassuring, that some imported gold still awaiting sale has been offered to more regular shippers and refused by them, and that some of these firms have cancelled orders for gold. The natural effect of the advance of the Bank rate should be to attract gold. It may be pointed out, however, that the metal can scarcely come from the Continent where similar protective measures will doubtless be generally adopted without delay, and it is not in the least degree likely to come from the United States. As we have pointed out repeatedly during the past two years, the gold exported thither seems to mysteriously disappear in the Western and Southern States, and expression has again been given to the suspicion that hoarding is in progress."

The following late news about the Antwerp produce market, from Messrs Bunge & Co. of that city, under date Oct. 6th, 1881, is important:—

Sheepskins—

We have had a fair demand, and sales amount to 124 bales Stock only 21 bales.

In Bordeaux public sales were held on 28th and 29th ult.; there have been offered 2,968 bales whereof 1,620 bales could be sold at prices denoting a rise of about 5 centimes on those paid during the auctions held there in June.

Hides—

As reported in our last issue, the demand had somewhat flagged of late, however our market has again shown fair activity and owners, confident in the article's strong statistical position, refuse making any concessions of moment. It appears that in England the sale of a heavy Uruguay cargo at 7¼d has created a bad impression, the preceding sale having been made at 7½d, but it must not be overlooked that the cargo in question consisted of long haired hides, which at least on the Continent are generally considered to be worth some 5 to 6 o/o less than short haired. Taking this fact into account the decline in question becomes more or less illusory.

There were sold to arrive:—

La Bontad, all the hides of 32 to 40 kilos out of 4,726 B. Aires saladero Podesta ox, 66.97 lbs., at fs.79

All the hides of 25 kilos and more, out of 10,000 Gualeguay saladero Delacre ox hides, 61.29 lbs., discharging per Glückauf at fs.79

In England the following sales to arrive have been effected:—

J W Lassen, 4,080 Santa Maria, 1,699 Sacra and 623 Salto, in all 6,402 ox hides, 69½ lbs., at 7¾d tare 6 lbs.

Aalong from Rio Grande 3,705 ox hides 68½ lbs., 924 ox hides, 55 lbs., and 1,360 cow hides, 50½ lbs., at 6¾d for heavy and 6 9/16d for light.

Tallow—

Since issuing our last report inquiry continued very active, entirely clearing our market of everything, as it became available until the quieter news recently received from England put a stop to the upward movement. Beef has been paid fs.105, and fs.107 is now asked, but we expect could be had at a reduction on the latter price; mutton may be quoted fs.106 to 107 nominal.

In Liverpool beef has been paid up to 45s 6d and mutton 43s, but there too the market has quieted down in a perceptible manner.

The *Money Market Review* says:—

"We are glad to see that another stock which on several occasions has been stamped in these columns as neglected, while containing the elements of strong improvement—namely, the Ordinary Stock of the Central Uruguay Railway of Montevideo—is about to receive a dividend at the increased rate of 4s per share. The line will almost certainly do much better in the future, and therefore the Ordinary Shares, at their present price of 7½ to 8, which marks a very considerable discount on the £10 paid, must still be viewed as holding out promise of a considerable ultimate increase in market value. Meanwhile, it is not unworthy of notice that the Perpetual Six per Cent Debenture Stock of this Company is now firmly maintained at the price of 118."

As appears by the following the French Treaty has been extended to next year:—

"The French Commercial Treaty.—Last night's *Gazette* contains the declaration signed at Paris on the 21st instant, prolonging the treaties of commerce and navigation now in force between Great Britain and France from the 8th Nov. next to the 8th Feb., 1882. Last evening the Oldham master cotton spinners appointed Mr Andrew, their secretary, and two manufacturers to represent them at Paris on the French Treaty conference. Mr J J Madgely will represent limited companies. These gentlemen have full power to act, and will, besides, be present to give any technical information demanded as regards the effect of the treaty on cotton yarns and manufactures."

El Viernes 4 de Noviembre
A las 2 en punto de la darte
Venderemos por el precio que esceda de la pequeña base que se le ha fijado y por orden terminante de su dueño.
Seis leguas proximamente de campo que como hemos dicho dista solo 11 leguas del pueblo de Bahia Blanca y cual esta en la Provincia de Buenos Aires, lindando con la zanja del Fuerte Argentino lo cual lo garantiza mucho mas que a cualquiera otro y viniendo a quedar su ubicacion entre este Fuerte y Puan.
Al campo lo cruzan dos caudalosos arroyos el Corta Pie y el Pellcura poseyendo a mas varias lagunas, por cuya razon, y por la escelencia de sus pastos tiernos, recencidos como los mejores de aquel parage, resolvieron el general Garcia y Coronel Donovan en la expedicion, establecer alli las grandes invernadas del ejercito.
Por esta razon hemos rogado a estos dos gefes distinguidos se sirvan darnos sus informes, los cuales publicamos a continuacion.
Muy inmediata a este campo esta la concesion Plaza Montero pero es lindero con el gran establecimiento del Sr Ernesto Tornquist, que como se sabe esta todo poblado con edificios y hacendadas y totalmente alambrado.
A mas todos los linderos que mas abajo se mencionan, tienen tambien, sin escepcion sus estancias pobladas y trabajando.
A este campo lo cruza el telegrafo y el camino real que va a Bahia Blanca, Guamini y Puan, pasando por su centro la galera que va a Carhue.
Para probar elocuentemonte que este es el mejor campo que se ha puesto hasta hoy en venta, basta decir que el Sr Ataliva Roca lo adquirio hacen 3 años, cuando recien se abrio la primera suscricion por cuya razon el num. de orden del titulo es el 12 lo que evidencia que el Sr Roca fue el primero de los que eligieron por los escelentes informes que tuvo.
Hay otra razon para garantir que ningun campo se encuentra en mejores condiciones de venta que este, y el que, como se sabe, el Gobierno Nacional piensa hacer funcionar el puerto de Bahia Blanca muy pronto y en esta virtud que muy pronto tambien funcionar dos saladeros que se construyen alli.
Este campo no tiene ningun gravamen, no adeuda nada al Gobierno.
En nuestra casa, se daran cartas ordenes para Bahia Blanca, donde estara una persona encargada de mostrar el campo.
Los titulos son de primer orden.
Los linderos y su ubicacion los siguientes.
Por su fondo al S.O. con el lote num 47 de D A Gonzalez Chaves; por el N. O. con el lote 35 de L A Burgos; por el S. E. con el num 6 del mismo Gonzalez Chaves.
El lote 6 y el 36 prima que es el que esta en venta linda por el N. O. con la zanja de la linea de frontera, teniendo por consiguiente la ventaja de tener un frente de defensa impenetrable.
NOTA—Podemos garantir que no hay expropiacion del Ferro Carril del Sud y que el Gobierno de la Provincia se acaba de arreglar con la empresa, para concluir la linea del Azul hasta Bahia Blanca a principio del año 1884.

PARIS LETTER.

(From our own Correspondent)

Oct. 4th

Poor Gambetta; for loving the Republic too well, he is made responsible for its latter-day errors; perhaps he had a finger in the Tunisian pie, as he had in the Thomassin military training expedition to Greece; to other political capital sins, he is accused of endowing France with a new parliament, two months before the old was legally dead; he is suspected of getting up a Kroumir agitation in Cochin China, and demanding his throne or annexation, from the King of Annam, in order to make him as independent as the Bey of Tunis. However, all this is as nothing compared with the latest indictment, that of allowing a poor old aunt to starve, while he leads the life of Dives, but where just now, no one exactly knows. Bettina Gambetta certifies she is hard up; the sister of M Thiers also proved a fly in his pot of ointment, and she was actually backed up by her brother's political opponents to open a boarding house, and to set forth on her bills, that she was sister to the illustrious statesman. When the old girl was gathered into Abraham's bosom, her brother paid debts, and bought an estate for her, six feet by three good, with a head stone to indicate the name of the tenant, and her rights while grass grew and water ran.

M. Grevy is also coming in for squalls; it was commonly believed that he at least resembled Cæsar's wife, in being above suspicion, and that he led not a political, so much as a pastoral life. The *Ulairon*, a monarchical print, has blown a strong blast on its trumpet horn; it accuses M Grevy of being the last of men, the friend of assassins, and meriting the central prison rather than the Elysee palace. Such revelations ought to make what few hairs age has left on his head, stand on end. Politicians never view their opponents in office as saints in glory; an exception might be made in favor of Foreign Minister St Hilaire, who if not a Richelieu, is certainly an honest man. He is coming in for plaguey knocks, because he has put his foot down on a ring that had all its arrangements cut and dry to farm Tunisia in the name of patriotism—and the mother country. The Tunisian family linen is being rather extensively washed in public; speculators having been foiled, are letting loose dogs of war on Messrs Grevy, Gambetta and Ministers. This play will continue till parliament opens; then the separation between the sheep and the goats will take place.

Michaelmas day is pleasant, sore for those who have not the amount of their rent made up; in France, it is devoted to organising the last chance for ladies of an uncertain age, not to resemble the last rose of summer; the eve, a cake is baked, and the wedding ring of the wife the most lucky in her career is placed therein: if the ring fall to the lot of a spinster, eligible for matrimony since 15 summers past, she is certain to find 'some honest gander for mate.' The traditional goose is a monopoly with the royalists, to fete the birth of the Comte de Chambord, who in the matter of restoration to the throne of France, comes under the general law of humanity, that of 'man never is, but always to be, blest.' The partizans of the Comte, that is, of Henry V., had regmal sprees for the flow of soul, and indulged in the harmless toast, drunk since half a century, to his speedy restoration. In some cases, religious services were celebrated in honor of the day we celebrate: or leaving the sacred building, bouquets of white flowers, emblem of the Bourbon white flag, were sold: also a newspaper for the occasion—'Henri V.' Already a journal exists, 'Henri V,' but it is a wolf in sheep's clothing as it is Gambettist.

The weather is very splendid for the vintage and out-door sports; the latter to be enjoyable only lacks game. Grape gathering is about as poetical as corn cutting and beet lifting: the fruit, which painters depict as luscious, is very extensively discolored by contact with the soil, and is covered with spiders' webs, as plentifully as telegraph wires in Japan; but the press, like fire, purifies. Girls in red legs, slatternly hair, and wooden shoes, empty the baskets into the vat, and men in bare feet, and as scantily clothed as French bakers, trample the berries into place, as if a hay stack, or trench for green maize. The vineyard proprietor is animated by no poetical reflections: he is calculating how many barrels of wine he will have per acre, and if the phylloxera will keep away, till France obtains Strasbourg. The wine fermented and casked, the proprietor regains Paris, negotiates for his vintage, and leaves the beet sugar and distillery business to his steward.

The swallows, that St. Francois d'Assise called 'sisters,' have taken their flight southwards; they will return to us before spring, but as ortolans from Italy; the new treaty of commerce ought to prohibit the entry into France, of black birds, thrushes, nightingales etc, as larkpies. The chesnut men have re-appeared and are fixtures in wine shop corners and street holes generally, till April Fool's day; they report the chestnut crop to be short this year, and which will necessitate more india-rubber inside the measures. When this class of the community save a little money, it is invested in a coal and wood shop, with top room attached: the next rise is to start a common lodging house or a small hotel, then sell out, invest in a portion of their native heath, live like a vegetable, fixed to the spot, to grow, propagate and rot.

The Duchesse de Chevreuse, who embodies all the faults and the follies, as far as she can of feudalism, is renowned for being surrounded by more tombs than relatives, so numerous have been in her long life-time the deaths in her family. Her third and last son, the Duc de Chaulnes has just expired, and of consumption and a broken heart. Very rich, his mother devoted all her love and energies to make him happy by a marriage; in this end she selected a naturalized Russian, Mlle. Galitzin, unpossessed of fortune, but heiress, it was said, of all the other gifts heaven could bestow. The husband found in a short time she was but human; that a scratch revealed the Tartar: she was eccentric which was unpardonable, as well as extravagant, but not a hanging matter in matter of dress; her manners irritated her husband, as to make him jealous as well as passionate. At last he decided to apply for a separation, but a family council assisted by three pulmonic experts, decided, that he was in a galloping consumption: he might leave natural causes, to pronounce the divorce. The spouses were reconciled for an hour—before his death, when it is said he addressed to her as a farewell, the lines—"Little matter that you be widow, mourning suits you so well.'

In the Rue Hauteville, near the Boulevard Bonne Nouvelle, a man ran after a cab; opened the door, struck his wife, then stabbed her. 'Poor Augusta,' he added, as he stooped over the corpse, I loved you too much.

The piano-makers, carpenters, dyers etc are on strike: a rise in organs and pianos may be expected whether on the two or three years hire system. No strike in France should ever be accepted as tragical, it is rather a screaming farce: the workmen remain idle for ten days, the employers become fussy etc; all is arranged by simply making the public pay dearer.

An exhibition has been opened in a special salon of the Louvre, of Tunisian curiosities: the treaty of the Bardo does not figure, but remains of Carthagenian and Roman architecture; it is said, the stone on which C. Marius sat while viewing the ruins of Carthage, is among the collection. The French for the moment are not in an archeological turn of mind respecting their latest acquisition of territory: they are more interested in knowing how the war proceeds there; what soldiers are alive—or dead. The few guesses at truth that find their way into the journals, do not lead to the conclusion that the campaign is a happy one, or that the soldiers have all the comforts of a home.

Three celebrated ladies took the Swallow for their device: Mme de Sevigne, with the motto, "The cold chases me"; Queen Christina of Sweeden "To seek better"; and Mme de Staël "I envy it" (Invidio). The portemonnaies with a swallow signify that the money flys away quickly.

Mlle. Della Rocca has visited the harem of the ex-khedive at Naples: the ladies are very happy in their exile, and pass a good deal of their time looking at the pictures of illustrated journals from every part of the world, eating bonbons and dressing. The sugar plums and toilettes come from Paris, but not the new wives; these are supplied by the Khedives son—true act of filial, love. When a new princess arrives, the other ladies view her as an enemy, an intruder, but when wed they accept her as a sister; a Brigham Young arrangement.

To understand Dante, Manin said, you ought to listen to his poetry being read aloud.

Talleyrand observed people could never feel the beauty of life, if they had not lived under the Reign of Terror. Mothers-in-law are rarely killed in railway collisions; they are too adroit.

HOP BITTERS
ARE
THE PUREST AND BEST
MEDICINE EVER MADE.
THEY ARE COMPOUNDED FROM
Hops, Buchu, Mandrake and Dandelion,
"The Oldest, Best, most Renowned, and Valuable Medicines in the World, and in addition contain all the best and most effective curative properties of all other bitters, being the greatest Liver Regulator, BLOOD PURIFIER and life and health restoring agent on earth."
They Give New Life and Vigor to the Aged and Infirm.
"To Clergymen, Lawyers, Literary Men, Ladies, and all those whose sedentary employments cause irregularities of the Blood, Stomach, Bowels, or Kidneys, or who require an Appetizer, Tonic, and mild Stimulant, these Bitters are invaluable, being highly curative, tonic, and stimulating, without being intoxicating."
"No matter what your feelings or symptoms are, or what the disease or ailment is, use Hop Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use the Bitters at once. It may save your life. Hundreds have been saved by so doing at a trifling cost."
Ask your Druggist or Physician.
"Do not suffer yourself or let your friends suffer, but use and urge them to use Hop Bitters."
"Remember, Hop Bitters is no vile, drugged drunken nostrum, but the purest and best Medicine ever made, and no person or family should be without it."

Dear Sirs,
I have been using your "Golden Fleece Dip" for the cure of scab in sheep during the whole year and I have not seen its equal in these parts.—It is an effectual and rapid cure, it not only destroys the scab in a very short time, but soon produces a new growth of wool.—
I have delayed writing you sooner in order that I might be the better able to judge of the effects of the medicine and to compare it with the remedies used by other sheepfarmers, none of whose flocks are at all so free from scab as mine, although they have been working far more constantly than I, to keep down scab, as regards its cost, it is the most profitable of any I have ever used or know of.
You are at liberty to use this as you may see fit and remain
Dear Sirs,
Yours truly
WILLIAM TUMBELTY.

Banco Hipotecario.

Esta abierto al servicio publico todos los dias de trabajo desde las diez de la mañana hasta las cuatro de la tarde.
Presta sobre hipoteca con reembolso a largos plazos.
Por el valor del prestamo da cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.
El valor del inmueble hipotecado no debe ser menor de $f.2000 ni el prestamo menos de $f. 500.
Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.
El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado a amortizarlo, y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:
Serie E.
Dura 20 años 100 dias 6 o/o de interes. 2 o/o de amortizacion y 1 o/o de comision.
Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco, E deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.
El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.
Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.
Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.
Las rentas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Julio y de 1 a 15 de Octubre.
El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.
El mismo Banco Hipotecario recibe sus Cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.
El deposito se admite desde una Cedula de $f.50 que es el minimum de las que emite el Establecimiento.

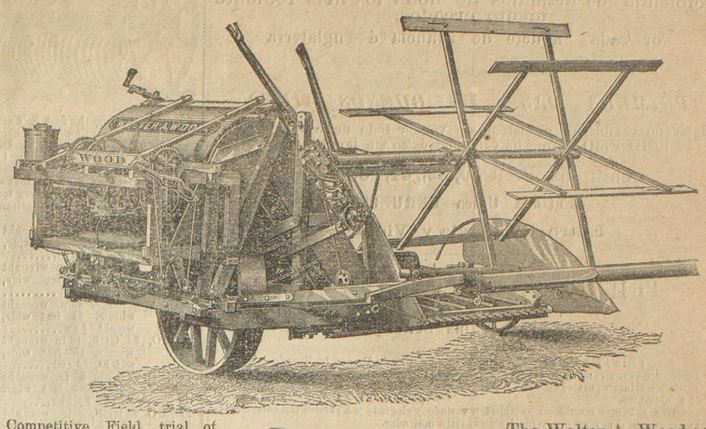
WALTER A. WOOD'S HARVESTING MACHINES



A Competitive Field trial of Automatic Binders was held at Melbourne, in the Province of Victoria, Australia, on the 29th day of November, 1880, under the auspices of the Melbourne International Exhibition and in connection therewith, but under the direction and charge of the National Agricultural Society of Victoria.
The Machines entered for competition were:—
Walter A. Wood's Twine Binder,
Osborne's Wire Binder, Osborne's Twine Binder, McCormack's Wire Binder, McCormack's Twine Binder, Deering's Twine Binder.
(The judges in making their awards did not take into account the material used in binding, whether Wire or Twine, but were governed by the merits of the machine and quality of work done.)
Result of the Trial:
Walter A. Wood's Twine Binder
Was awarded the FIRST PRIZE.

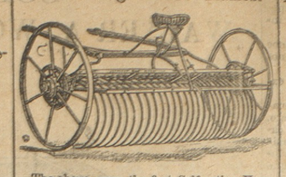
HOWARD'S CELEBRATED MACHINES

Howards' Self-Acting Horse Rakes.



The above were the first Self-acting Horse Rakes which secured public favour, and owing to their extraordinary success various attempts have been made to imitate them, but J. & F. HOWARD'S simple brake principle—Patented—is so instantaneous in action, that all the contrivances introduced by others for effecting the same object are in comparison, but complicated expedients.

O, 28 teeth, 42in. wrought wheels, 8½ feet wide, weight 5½ cwt.

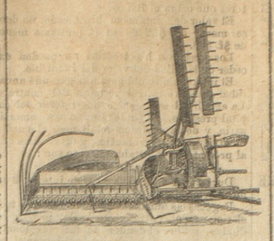
OOOO, 28 teeth, 52 in. wrought wheels, 8½ feet wide, weight 6½ cwt.
OOOO, 22 teeth, 52in. wrought wheels, 10 feet wide, weight 6 cwt.

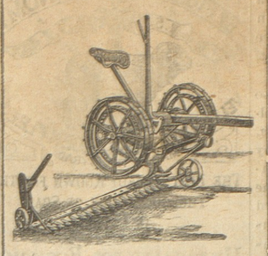
Howard's New Patent Simplex Mower.



J. & F. HOWARD'S Simplex Mower is one of the lightest machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usage. J. & F. HOWARD'S patented principle of *open gearing* is adopted. This gearing, among other advantages, is light in weight, of great strength, and not liable, as other gearing, to get clogged with the cut grass, there being no cogs to catch it, and no shield therefore is required.

With two Knives, Spring Seat, and Tool Box, containing all requisites for use in the field, weight 6 cwt.

Howard's New Patent Simplex Reaper.



J. & F. HOWARD'S Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

With two Knives, Seat and Tool Box, containing all requisites for use in the field, weight 10½ cwt

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880.—To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never need any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"We strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c, at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS;

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.
